

CONSTRUCTION NOTICE

The Borough of Gettysburg will be rebuilding Red Patch Avenue beginning on Wednesday July 27, 2016.

Please have all vehicles removed from the street before 4 am Wednesday the 27th.

We anticipate that the street will be closed for at least one week or more depending on weather and construction progress.

Property owners that do not have rear or alternate access to their properties are asked to park their vehicles on Ridge Avenue.

We apologize for any inconvenience. Rest assured that we will do everything possible to restore direct access to your property as soon as we can do so in a safe manner.

If you have any questions or concerns, please contact Public Works Director Dan Hilliard at 717-752-5027.
